

Audi A7 TFSI e

Sedan, 2019 - 2025

High-voltage component reversed left-to-right on right-hand drive vehicles

400 V
LI ION

Note: The illustration shows the maximum possible range of equipment.

	Airbag		Stored gas inflator		Seat belt pretensioner		SRS control unit		Pedestrian protection active system
	Automatic roll-over protection system		Gas strut / preloaded spring		High-strength zones		Special attention		
	Battery, low-voltage		Ultra-capacitor, low-voltage		Fuel tank		Gas tank		Safety valve
	Battery, high-voltage		Power cable, high-voltage		Separator, high-voltage		Fuse box, disabling high-voltage system		Ultra-capacitor, high-voltage
	High-voltage separator to low voltage		Fuse box, disabling high-voltage to low voltage		High-voltage component		Fuel tank, petrol		

1. Identification / recognition

The electric motor is silent. The display on the left of the instrument cluster (power meter) indicates whether the electric drive is switched "OFF" or "READY" for operation.

Logo

TFSI e

Charging port

Engine compartment (orange cable)

2. Immobilization / stabilization / lifting

Immobilise the vehicle

Press the Park button "P" and apply the parking brake.

Lifting points

 Suitable lifting points  High-voltage battery

Turn off the ignition (power meter display "OFF")

Press the START-STOP button without depressing the brake pedal.

A key card or a smartphone app can also be used instead of a remote control key.

3. Disable direct hazards / safety regulations

Deactivate the high voltage system

Option 1: Separation point in engine compartment

① Pull out red tab

② Pull out black connector

Audi A7 TFSI e

Sedan, 2019 - 2025

Option 2: Fuse in passenger compartment

Fold the rear backrest forward and open the cover

Pull out fuse

Do not touch, cut or open high voltage components or the high-voltage battery. Wear suitable safety equipment.

In the event of an accident in which the airbags are deployed, the high-voltage system will be automatically deactivated. The high-voltage system is de-energised approx. 20 seconds after deactivation.

Disconnect the 12-volt battery (in the boot on the right-hand side of the vehicle)

Remove the cover

Disconnect the negative terminal

Separate from charging station (emergency release in the boot on the left-hand side of the vehicle)

Remove the cover

Release the yellow loop from the retainer and pull it

Disconnect the charging connector

4. Access to the occupants

Glass types:

- ① Composite safety glass
- ② Single-layer safety glass
- ③ Side windows, optional Composite safety glass

5. Stored energy / liquids / gases / solids

LI ION

400 V

52 l

12 V

There is a risk of a thermal reaction in the high-voltage battery if coolant escapes from the battery cooling system.
Monitor the temperature of the high-voltage battery.

6. In case of fire

Lithium-ion batteries can self-ignite spontaneously or after a delay in the event of damage or incorrect use, and can re-ignite after a fire has been suppressed.
Wear suitable safety equipment.

7. In case of submersion

After recovering the vehicle from the water, deactivate the high-voltage system (see Section 3) and allow the water to drain off. Wear suitable safety equipment.

8. Towing / transportation / storage

Lithium-ion batteries can self-ignite, or re-ignite after a fire has been extinguished.

If the vehicle has been involved in an accident or if the HV battery is damaged or suspicious: Deactivate the high-voltage system (see Section 3). Park the vehicle at a safe distance from buildings and other vehicles (quarantine area).

Do not tow a vehicle that has been involved in an accident on its drive axles.

9. Important additional information

10. Explanation of pictograms used

Flammable

Explosive

Caustic, skin irritant

Hazardous to human health

Environmental hazard

Petrol hybrid vehicle

Petrol vehicle

Warning High voltage

Caution, danger

Use lots of water to extinguish the fire.

LI ION

Lithium-ion battery

Dangerous voltage

Release the bonnet

Unlock luggage compartment

Use thermal infrared camera

Remove smart key
