CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Ms. Gay P. Kent, Director
General Motor Corp.
Mail Code 480-111-E18
30200 Mound Road
Warren, MI 48090

NVS-217ph
DI05-063

Dear Ms. Kent,

This letter requests additional information regarding certain death incidents reported by General Motors in its light vehicle early warning report for the 4th quarter of 2004. The Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) is requesting information on the following incidents:

Selected Death Incidents from the 4th Quarter of 2004	
For Reporting Category: L	
For the following Sequence IDs (SeqID): 10, 33, 49, 149, 185, 187, 270, 346, 348, 420, 472, 483, 512, 552, 557, 618, 654, 655	

Please provide numbered responses to the following requests, repeating the applicable request verbatim before each response. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds to each pertinent information request. A separate response must be provided for each incident. Each response, document or attachment must be clearly identified with the incident Sequence ID (SeqID) number.

Unless otherwise stated in the text, the following definitions apply to these information requests:

Incident: each incident identified in the table above.

Claim and Notice: shall have the meanings stated in 49 CFR §579.4(c). Claim and notice also specifically refer to the claim(s) and notice(s) that are the predicate for the early warning report on the incident.

Manufacturer: General Motor Corporation.

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

Vehicle: the vehicle produced by General Motor Corporation that is identified in the claim or notice.

Defect: means any failure, malfunction, lack of durability, or other problem in performance, construction, a component, or material of a motor vehicle or piece of motor vehicle equipment.

Document: "Document(s)" is used in the broadest sense of the word and shall mean all written, typed, graphic and photographic matter whatsoever, be it in original, copy or electronic form. Any photograph originally produced in color must be provided in color. Furnish all documents whether verified by General Motor Corporation or not. If a document is not in the English language, provide both the original document and an English translation of the document. Document(s) includes all documents in General Motor Corporation's custody and/or control.

Please repeat the applicable request verbatim above each response. After General Motor Corporation's response to each request, identify the source of the information and indicate the last date the information was gathered.

1. Provide a complete and full copy of the claim or notice document that notified General Motor Corporation of the incident, including any amendments and supplements thereto, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.
2. Provide a copy of all documents concerning the alleged defect, or alleged consequences of the alleged defect, that refer to the incident excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices and estimates; and (c) documents related to quantification of damages.
3. Provide a copy of all investigative documents, including but not limited to photographs, Police Accident Reports, cause and origin reports, forensic or other reports related to each incident.
4. Provide General Motor Corporation's assessment of the circumstances that led to the incident including General Motor Corporation's analysis of the claim and/or notice regarding allegations of a defect.

This letter is being sent to General Motor Corporation pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49 and to request reports and the production of things. It constitutes a new request for information. General Motor Corporation's failure to respond promptly and fully to this letter could subject General Motor Corporation to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163. (Other remedies and sanctions are available as well.) Please note that maximum civil penalties under 49 U.S.C. § 30165 have increased as a result of the recent enactment of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act, Public Law No. 106-414 (signed November 1, 2000). Section 5(a) of the TREAD Act,

codified at 49 U.S.C. § 30165(b), provides for civil penalties of up to \$5,000 per day, with a maximum of \$16,050,000 for a related series of violations, for failing or refusing to perform an act required under 49 U.S.C. § 30166. *See* 49 CFR 578.6 (as amended by 69 Fed. Reg. 57864 (Sept. 28, 2004)). This includes failing to respond to ODI information requests.

If General Motor Corporation claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5 U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, General Motor Corporation must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-110), National Highway Traffic Safety Administration, Room 5219, 400 Seventh Street, S.W., Washington, D.C. 20590.

Your response to this letter, together with a copy of any confidentiality request, must be submitted to this office by **August 11, 2005**. Please include in your response the identification codes referenced on page one of this letter. If you are unable to provide all of the information requested within the time allotted, you must request an extension from me at (202) 366-4238, no later than five business days before the response due date. If all of the information requested by the original deadline is unavailable, you must submit a partial response by the original deadline with whatever information then is available, even if an extension is granted.

If you have any technical questions concerning this matter, please contact Mr. Leo Yon at (202) 366-7028 or by fax at (202) 366-7882.

Sincerely,

Christina Morgan, Chief

OFFICE OF
DEFECTS INVESTIGATION

GMRC016

NVS-217ph
DI05-063

Dear Ms. Morgan:

This letter is General Motors' (GM) response to your inquiry dated July 23, 2005, regarding certain death incidents reported by GM in its light vehicle early warning report for the 4th quarter of 2004.

GM's response is comprised of 19 CDs, one or more for each incident that is the subject of DI05-063, with the exception of Sequence ID 483, which will be provided under separate cover.

Attachment "A" includes instructions for navigating the CD. Each CD, on its face, is identified by the NHTSA Sequence ID number, the Manufacturer's Unique ID number and the year, make and model of the vehicle involved in the incident, e.g., 512 107175398 - 486309 2000 GMC Sierra 1500. When the CD is launched, this identification number appears again along with all of the documents (including photographs and videos) on the CD listed under "Filename." The first document listed under Filename is an index with the Request and Responses, e.g., identified as 512 107175398 - 486309_00 Request and Responses.tif. The index is numbered one through four to correspond to Inquiries no. 1 through 4 of the inquiry, which are repeated verbatim below. The index also details whether any documents responsive to each inquiry were located.

For example, the first two Request and Responses in the index for one of the CDs are as follows:

DI05-063
512 107175398 - 486309
2000 GMC SIERRA 1500

Request for Information:

1. Provide a complete and full copy of the claim or notice document that notified General Motors Corporation of the incident, including any amendments and supplements thereto, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

Response: See Attached Documents

2. Provide a copy of all documents concerning the alleged defect, or alleged consequences of the alleged defect, that refer to the incident excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices and estimates; and (c) documents related to quantification of damages.

Response: None.

The remaining documents listed under Filename, reference the Manufacturer's Unique ID number along with the responsive Inquiry number. For example:

- 512 107175398 - 486309_01_001 - is the first document responsive to Inquiry no. 1.
512 107175398 - 486309_03_001 - is the first document responsive to Inquiry no. 3.
512 107175398 - 486309_03_002 - is the second document responsive to Inquiry no. 3.

Product Investigations

Mail Code: 480-111-E18 • 30200 Mound Road • Warren, MI 48090-9010
GMRC016 DI05-063 Response

Your inquiries and our corresponding replies are as follows:

1. Provide a complete and full copy of the claim or notice document that notified General Motors Corporation of the incident, including any amendments and supplements thereto, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

The table below lists the incidents that are the subject of DI05-063, by Reporting Category, Sequence ID, VIN and type of notice received by GM (as "notice" is commonly used, not as it is defined by 49 C.F.R. § 579.4(c)). Incidents reported on GM's Early Warning Report Death and Injury worksheet fall into four categories: Lawsuit, Claim, Product Allegation Resolution (PAR) or Rumor. Lawsuit and Claim case types generally meet the § 579.4(c) definition of "claim." PAR cases, in this context, refer to customer contacts in which an injury or fatality is alleged to have occurred as a result of a product defect, and are accompanied by a writing that may or may not meet the §579.4(c) definition of "claim" or "notice." Rumor incidents do *not* involve a written or verbal, implied or express allegation of a defect by a customer. Rather, rumor cases generally refer to incidents that GM learned of through the media, which were subsequently investigated further. As such, the document included in response to Inquiry 1 that can be found on the enclosed CD for the PAR and Rumor case listed in the table may not be a claim or notice of the type generally defined as such by § 579.4(c).

SELECTED DEATH INCIDENTS FROM THE 4TH QUARTER OF 2004

654	1G8AL52F53Z [REDACTED]	PAR
655	1G8AJ52F14Z [REDACTED]	CLAIM

2. Provide a copy of all documents concerning the alleged defect, or alleged consequences of the alleged defect, that refer to the incident excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property

damage invoices and estimates; and (c) documents related to quantification of damages.

See attached document.

- 3. Provide a copy of all investigative documents, including but not limited to photographs, Police Accident Reports, cause and origin reports, forensic or other reports related to each incident.**

See attached documents and photographs.

- 4. Provide General Motors Corporation's assessment of the circumstances that led to the incident including General Motors Corporation's analysis of the claim and/or notice regarding allegations of a defect.**

To date, GM's investigation of the alleged defect has not included an assessment of the cause(s) of each incident responsive to this request. Some incident reports may not contain sufficient reliable information to accurately assess cause. Assessments of other incidents (from lawsuits and claims) may be attorney work product and/or privileged. Therefore, information and documents provided in this response, if any, consist only of non-attorney work product and/or non-privileged material for incidents that have been investigated and assessed.

GM claims that certain information, in documents that are part of rumor, claim and lawsuit files maintained by the GM Legal Staff and its outside counsel, is attorney work product and/or privileged. That information includes notes, memos, reports, photographs, and evaluations by attorneys (and by consultants, claims analysts, investigators, and engineers working at the request of attorneys). GM is producing responsive documents from its rumor, claim and lawsuit files that are neither attorney work product nor privileged and withholding those that are attorney work product and/or privileged.

This response was compiled and prepared by this office upon review of documents retrieved by GM and does not include documents generated or received subsequent to the searches.

Please contact me at if you require further information.

Sincerely,

Gay P. Kent
Director

One Killed In Head-On

By Julie Vaughan
Editor

A 25-year-old Canton man was killed, and a woman was seriously injured, in a head-on collision Monday morning after their vehicle struck a tree on Van Zandt County Road 4106.

Department of Public Safety Trooper Pete Asplund said [redacted] died from "head trauma" injuries received in the accident as a passenger in the right front of the 2004 Saturn.

The driver, [redacted] 21, Canton, was transported to Trinity Mother Frances Hospital in Tyler by Champion EMS.

"She ran off the road to the left (west), never applied the brakes and skidded along the brush line

and hit a tree head on," Asplund said.

He went on to explain that the impact of the hit caused the car to stand up vertical with the rear of the vehicle in the air before it fell to the left on the driver's side.

Asplund said neither [redacted] nor [redacted] were wearing a seat belt, and [redacted] injuries involve head trauma and a broken femur.

Speed and other contributing factors were unknown as the accident is still being investigated. An update on [redacted] condition was unknown as of press time.

Asplund was assisted by troopers Kaleb Bullock, Nisha Thompson, sergeant Jeff Wimberly and the Canton Volunteer Fire Department.

Hearings Scheduled For Former Officers

By Debbie French
Staff Writer

Hearings for one current and two former Canton Police Department employees have been scheduled for Monday's Canton City Council meeting at 6 p.m.

City secretary and finance officer Julie Jackson confirmed grievance hearings for former school resource officer Michel Abio and former records clerk/dispatcher Denise Proctor are scheduled. A hearing is also scheduled for Charlie Brown, who was formerly a sergeant and investigator before a department reorganization demoted him to

senior day patrol officer.

Dallas attorney William B. Dunleavy will represent Brown and Proctor. Dunleavy represented former police chief David Hammonds, former lieutenant Ron York and patrol officer Steve Thompson at city council hearings last month.

At those hearings, the council affirmed administration decisions regarding the employees' positions, although it did reinstate Thompson's salary to what it was before the reorganization and agreed to pay York a \$525 shortage in his retirement benefit.

Type: Internal Contact - Contact Name: Brad Boone Please make this a 1241.

Date: 11/17/2004 User: SRUDOLPH Outbound Retailer Call

Type: Outbound Retailer Call - Contact Name: [REDACTED] contacted service manager Shaun Kramer to advise him of the incident. I advised Shaun to notify Saturn if the vehicle comes into his facility. I provided the VIN number, and the SR number. Shaun stated he would contact SCAC if the vehicle comes into the facility.

Date: 11/17/2004 User: SADMIN SR Summary

SR Summary The owner's friend [REDACTED] stated her son-in-law, [REDACTED] and his girlfriend [REDACTED] were in an accident in the vehicle, and the air bags did not deploy. The owner's friend stated they were not wearing their seat belts. The owner's friend stated [REDACTED] was driving the vehicle, when she went around a curve and lost control hitting a tree head on. The owner's friend stated the incident happened on 11/15/2004 at approximately 11:45 a.m. The owner's friend stated she does not know how fast [REDACTED] was driving, but a police report was filed with the Texas Hwy Dept. The owner's friend stated the weather was clear, and the road conditions were paved and dry. The owner's friend stated her son-in-law was killed, and [REDACTED] is in the hospital.

Date: 11/17/2004 User: SADMIN Standard Questions

1. There were injuries as a result of the accident. 2. Injuries: son-in-law died, [REDACTED] has a lacerated liver, and her leg 3. There was no property damage as a result of the accident. 4. [REDACTED] was driving at the time of the incident. 5. There were 2 occupants in the vehicle. 6. The Owner's evening phone is [REDACTED] The Claimant's daytime phone is [REDACTED] The Claimant's evening phone is [REDACTED] 7. The events leading up to the incident are as follows: The owner's friend [REDACTED] stated her son-in-law and his g 8. The incident occurred on 11/15/2004 at 11:45. 9. VZCR 4106 in Canton, TX 7510310. clear 11. paved and dry 12. The vehicle speed is unknown. 13. Farmers Insurance Company, 800-855-0011 14. The current vehicle location is unknown. 15. The vehicle was not damaged. 16. Police Report: Texas Dept. of Hwy 17. There were no other vehicles involved in the incident. 18. Permission has not been granted to inspect the vehicle.

Dear Ms. Alexander:

Please be advised that this law firm is representing the above-captioned individual in her claim for personal injuries arising from an automobile accident which occurred on November 15, 2004.

I am in the process of gathering all of the requested information and as soon as receive it, I will forward a copy of the same on to you in hopes of being able to negotiate a reasonable settlement in this matter.

I look forward to working with you in this matter and if you have any questions, please do not hesitate to call.

Very truly yours,

J. Patrick Spruiell

Re:	My client:	[REDACTED]
	Your insured:	General Motors Corporation
	Claim No.:	489548
	D/A:	November 15, 2004
	Place:	Van Zandt County, Texas

Dear Ms. Alexander:

Pursuant to your May 23, 2005 letter, please be advised that we are in the process of trying to determine medically what damages were sustained due to the air-bag failure. As soon as I am able to obtain the necessary medical information, I will advise you of the same.

If you have any questions, please do not hesitate to call.

Very truly yours,

J. Patrick Spruiell

Interface used to collected data	Block number: 00 Interface version: 41 Date: 11-04-04 Checksum: 9E00
Event(s) recovered	Non-Deployment

SDM Data Limitations

SDM Recorded Crash Events:

There are two types of SDM recorded crash events. The first is the Non-Deployment Event. A Non-Deployment Event is an event severe enough to "wake up" the sensing algorithm but not severe enough to deploy the air bag(s). It contains Pre-Crash and Crash data. The SDM can store up to one Non-Deployment Event. This event can be overwritten by an event that has a greater SDM recorded forward velocity change. This event will be cleared by the SDM after the ignition has been cycled 250 times.

The second type of SDM recorded crash event is the Deployment Event. It also contains Pre-Crash and Crash data. The SDM can store up to two different Deployment Events, if they occur within five seconds of one another. Deployment events cannot be overwritten or cleared from the SDM. Once the SDM has deployed the air bag, the SDM must be replaced.

The data in the non-deployment file will be locked after a deployment, if the non-deployment occurred within 5 seconds before the deployment or a deployment level event occurs within 5 seconds after the deployment.

SDM Data Limitations:

-SDM Recorded Vehicle Forward Velocity Change reflects the change in forward velocity that the sensing system experienced during the recorded portion of the event. SDM Recorded Vehicle Forward Velocity Change is the change in velocity during the recording time and is not the speed the vehicle was traveling before the event, and is also not the Barrier Equivalent Velocity. This data should be examined in conjunction with other available physical evidence from the vehicle and scene when assessing occupant or vehicle forward velocity change. For deployments and deployment level events, the SDM will record 100 milliseconds of data after deployment criteria is met and up to 50 milliseconds before deployment criteria is met. For non-deployments, the SDM will record the first 150 milliseconds of data after algorithm enable.

-Event Recording Complete will indicate if data from the recorded event has been fully written to the SDM memory or if it has been interrupted and not fully written.

-SDM Recorded Vehicle Speed accuracy can be affected if the vehicle has had the tire size or the final drive axle ratio changed from the factory build specifications.

-Brake Switch Circuit Status indicates the status of the brake switch circuit.

-Pre-Crash Electronic Data Validity Check Status indicates "Data Invalid" if the SDM does not receive a valid message.

-Driver's Belt Switch Circuit Status indicates the status of the driver's seat belt switch circuit.

-The Time between Non-Deployment and Deployment Events is displayed in seconds. If the time between the two events is greater than five seconds, "N/A" is displayed in place of the time.

-If power to the SDM is lost during a crash event, all or part of the crash record may not be recorded.

SDM Data Source:

All SDM recorded data is measured, calculated, and stored internally, except for the following:

-Vehicle Speed, Engine Speed, and Percent Throttle data are transmitted once a second by the Powertrain Control Module (PCM), via the Class 2 data link, to the SDM.

-Brake Switch Circuit Status data is transmitted once a second by either the ABS module or the PCM, via the Class 2 data link, to the SDM. Depending on vehicle option content, the Brake Switch Circuit Status data may not be available.

-In most vehicles, the Driver's Belt Switch Circuit is wired directly to the SDM. In some vehicles, the Driver's Belt Switch Circuit Status data is transmitted from the Body Control Module (BCM), via the Class 2 data link, to the SDM.

System Status At Non-Deployment

SIR Warning Lamp Status	OFF
Driver's Belt Switch Circuit Status	UNBUCKLED
Ignition Cycles At Non-Deployment	1902
Ignition Cycles At Investigation	2300

INVESTIGATOR'S NARRATIVE OPINION OF WHAT HAPPENED (ATTACH ADDITIONAL SHEETS IF NECESSARY)

Unit #1, northbound on VZCR4106, veered off of the roadway to the left. Unit #1 struck the brush line, causing damage along the left side, and continued northbound. Unit #1 struck a tree head-on, causing the rear-end to leave the ground. The vehicle pivoted on the front end, coming to rest on the driver's side. The passenger, sitting right front, was apparently killed on impact. Driver was partially ejected, with her leg caught under the steering wheel. The front end was severely damaged and the windshield was smashed. Driver was intoxicated by illegal drugs.

Case No. JP3871-04 in the matter of [REDACTED], deceased.

Office of the Medical Examiner
in the County of DALLAS
State of TEXAS

AFFIDAVIT

Before me, the undersigned authority, personally appeared RueNette J. Ellis, who, being duly sworn, deposed as follows:

My name is RueNette J. Ellis, I am over 21 years of age, of sound mind, capable of making this affidavit, and personally acquainted with the facts herein stated:

I am the Deputy Custodian of Records of the Dallas County Medical Examiner's Office. Attached hereto are 4 pages of records and xx photographs from the Dallas County Medical Examiner's Office. These said 4 pages of records and xx photographs are kept by the Dallas County Medical Examiner's Office in the regular course of business, and it was the regular course of business of the Dallas County Medical Examiner's Office for an employee or representative, or a doctor permitted to practice in the Dallas County Medical Examiner's Office, with personal knowledge of the act, event, condition, opinion or diagnosis, recorded to make the record or to transmit information thereof to be included in such record; and the record was made at or near the time or reasonably soon thereafter. The records attached hereto are the original or exact duplicates of the original.

SWORN TO AND SUBSCRIBED

before me on February 19, 2008

Notary Public in and for Dallas County, Texas

My commission expires

(By statute, the original records are retained by the Dallas County Medical Examiner's Office. See Art. 49.25, Sec. 11, Vernon's Texas Statutes, CCP.)

To protect the privacy of individuals, NHTSA does not make medical records available to the public without authorization. For this reason, documents falling into this category have not been included in this complaint record.
