Description :

DI09-003-SEQ-476 ON AUGUST 1, 2008, A 2007 SATURN ION 4-DOOR SEDAN WITH FIVE OCCUPANTS STRUCK A DOG ON ROAD 204 IN AN UNINCORPORATED AREA OF TULARE COUNTY NEAR EXETER, CALIFORNIA. THE INCIDENT TOOK PLACE SHORTLY AFTER 9:00PM ON A CLEAR NIGHT ON A DRY STRAIGHT SECTION OF UNLIT ROADWAY AND THE DRIVER WAS UNABLE TO AVOID STRIKING ONE OF TWO DOGS THAT RAN INTO THE PATH OF THE SATURN. NONE OF THE OCCUPANTS OF THE VEHICLE WAS INJURED; THE DOG FLED THE SCENE AND ITS INJURIES WERE UNKNOWN. THE DRIVER STATED SHE HEARD A LOUD BANG AND NOTED A GUNPOWDER SMELL IN THE CABIN AT IMPACT; HOWEVER, SHE NOTED NO AIRBAGS DEPLOYED AND THE FRONT RIGHT SEATBELT DID NOT LOCK (ALTHOUGH HERS DID), ALLOWING THE PASSENGER TO CONTACT THE DASHBOARD. A CALIFORNIA HIGHWAY PATROL ACCIDENT REPORT WAS PREPARED BASED ON INFORMATION PROVIDED BY THE DRIVER. FOLLOWING THE REPORT THE VEHICLE WAS DRIVEN TO A SATURN DEALERSHIP FOR REPAIRS. GENERAL MOTORS BECAME AWARE OF THE INCIDENT ON AUGUST 7, 2008, WHEN THE BROTHER OF THE DRIVER PHONED TO REPORT THAT THE AIRBAGS TRIED TO DEPLOY BUT FAILED AND THAT THE AIRBAG WARNING LIGHT WAS NOW ILLUMINATED. HE ALSO STATED THAT ON-STAR CALLED IMMEDIATELY DETECTING A CRASH. HE EXPRESSED CONCERN THAT THE DEALERSHIP TO WHICH THE VEHICLE WAS TAKEN INITIALLY INDICATED THE AIRBAGS AND SEATBELTS WERE DEFECTIVE, THEN STATED THE SYSTEMS OPERATED PROPERLY BUT WERE REPLACING THE AIRBAGS AND SEATBELTS ANYWAY. THE BROTHER REQUESTED GENERAL MOTORS INVESTIGATE THE MATTER FURTHER. GENERAL MOTORS CONTACTED THE DEALER, WHO REPORTED THE FRONT RIGHT SEATBELT PRETENSIONER HAD DEPLOYED IN THE IMPACT BUT THERE WAS NO AIRBAG DEPLOYMENT COMMAND RECORDED. THE DEALER INDICATED THAT, WHILE NO AIRBAG DTCS WERE FOUND, THE FOLLOWING DTCS WERE: B0065, LEFT FRONT PRETENSIONER LOOP; B0058, DEPLOYMENT LOOP; AND B0051, DEPLOYMENT COMMAND. THE DEALER FURTHER STATED THAT, FOLLOWING BEING TOLD THAT THE RESTRAINT SYSTEMS HAD OPERATED PROPERLY, THE VEHICLE OWNER HAD THE VEHICLE TOWED TO ANOTHER REPAIR FACILITY TO HAVE ALL THE SEATBELTS REPLACED BY HER INSURANCE COMPANY. AN INSPECTION OF THE REPLACED COMPONENTS HAD NOT BEEN CONDUCTED BY GENERAL MOTORS AT THE TIME OF THE D&I SUBMISSION. GENERAL MOTORS DID NOT PROVIDE AN ASSESSMENT OF THE CIRCUMSTANCES OF THE INCIDENT OR PROVIDE ANY COMMENT REGARDING ANY CLAIM AND/OR REPORT OF AN ALLEGED DEFECT. A SEARCH OF ODI/ARTEMIS DATA SPECIFIC TO SEATBELT AND AIRBAG NONDEPLOYMENT ISSUES IN MY2007 SATURN ION MODELS (LAST YEAR OF PRODUCTION) FOUND: NO SEATBELT VEHICLE OWNER QUESTIONNAIRE COMPLAINTS, FIELD REPORTS, FOREIGN CAMPAIGNS, PURSUITS OR RECALLS; ONE TECHNICAL SERVICE BULLETIN (10022423) RELATING TO RECALIBRATING THE FRONT PASSENGER SEAT WEIGHT SENSOR TO RESOLVE ISSUES OF FALSE PASSENGER SEATBELT WARNINGS; THREE AIRBAG VEHICLE OWNER QUESTIONNAIRE COMPLAINTS (10178130, 10237833 AND 10248859) DESCRIBING NONDEPLOYMENT INCIDENTS; ONE FIELD REPORT (000001L063002FP-SFYION-0707-14-10864.PDF); NO FOREIGN CAMPAIGNS, PURSUITS, RECALLS OR TECHNICAL SERVICE BULLETINS. Dear Ms. Morgan:

This is General Motors' (GM) response to your inquiry dated February 13, 2009 regarding certain death and injury incidents reported by GM in its light vehicle early warning report from 3rd quarter of 2008.

GM's response is comprised of 50 disks for the incidents that are the subject of DI09-003.

Attachment "A" includes instructions for navigating the disk. Each disk, on its face, is identified by the NHTSA Sequence ID number, the Manufacturer's Unique ID number and the year, make and model of the vehicle involved in the incident, e.g., 26 259693756 - 657480 and 2007 CADILLAC CTS. When the disk is launched, this identification number appears again along with all of the documents on the disk (including photographs and videos, if applicable) listed under "Filename." The first document listed under Filename is an index with the Request and Responses, e.g., identified as 26 259693756 - 657480_00_Request and Responses. The index is numbered 1 through 3 to correspond to Inquiries 1 through 3, which are repeated verbatim below. The index also details whether any documents responsive to each inquiry were located.

For example, the first two Inquiries and Responses in the index for the disk are as follows:

DI09-003
26 259693756-657480
2007 CADILLAC CTS

Request for Information:

1. Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

Response: See attached document.

2. Provide a copy of the Police Accident Report.

Response: See attached documents and photographs.

The remaining document listed under Filename, reference the Manufacturer's Unique ID number along with the responsive Inquiry number. For example:

26 259693756-657480_01_001 - is the first document responsive to Inquiry no. 1.
26 259693756-657480_02_001 - is the first document responsive to Inquiry no. 2.

Your inquiries and our corresponding replies are as follows:

1. Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

Response: See attached document.

The table below lists the incidents that are the subject of DI09-003, by Reporting Category, Sequence ID, VIN and type of notice received by GM (as "notice" is commonly used, not as it is defined by 49 C.F.R. §579.4(c)). Incidents reported on GM's Early Warning Report Death and Injury worksheet fall into four categories: Lawsuit (LIT), NISM (Not In Suit Matters), Product Allegation Resolution (PAR), or Rumor (RMR). Lawsuit and NISM case types generally meet the §579.4(c) definition of "claim." PAR cases, in this context, refer to customer contacts in which an injury or fatality is alleged to have occurred as a result of a product defect, and are accompanied by a writing that may or may not meet the §579.4(c) definition of "claim" or "notice." Rumor incidents do *not* involve a written or verbal, implied or express allegation of a defect by a customer. Rather, rumor cases generally refer to incidents that GM learned of through the media, which were subsequently investigated further. As such, the document included in response to Inquiry 1 that can be found on the enclosed disk for the PAR and Rumor case listed in the table, may not be a claim or notice of the type generally defined as such by §579.4(c).

2. **Provide a copy of the Police Accident Report.**

Response: If available, see attached document(s) and photograph(s) on the enclosed disk(s).

3. **At your option, provide GM's assessment of the circumstances that led to the incident including GM's analysis of the claim and/or notice regarding allegations of a defect.**

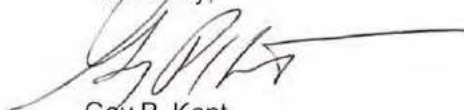

Response: GM opts not to respond.

GM claims that certain information, in documents that are part of rumor, claim and lawsuit files maintained by the GM Legal Staff and its outside counsel, is attorney work product and/or privileged. That information includes notes, memos, reports, photographs, and evaluations by attorneys (and by consultants, claims analysts, investigators, and engineers working at the request of attorneys). GM is producing responsive documents from its rumor, claim and lawsuit files that are neither attorney work product nor privileged and withholding those that are attorney work product and/or privileged.

This response was compiled and prepared by this office upon review of documents retrieved by GM and does not include documents generated or received subsequent to the searches.

Please contact me at if you require further information.

Sincerely,

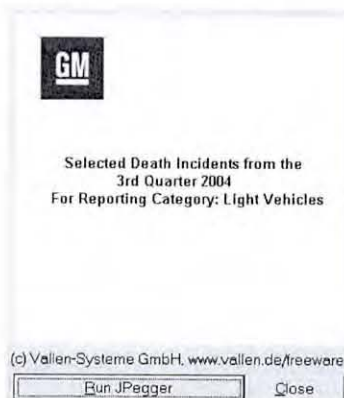

Gay P. Kent

Cust verified information and that she took the veh to her insurance so that she could have her veh back. The dlr was very confusing as far as the repairs and causes so she had her insurance repair the veh and they have already replaced the seatbelts.

Crs adv that her case will be sent to ESIS due to her insurance being involved and that they will contact her in 7-10 business days. I would recommend that she save any related parts that are being replaced

Customers that his sister was driving and that they hit a dog and they airbags did not deploy but they were concerned because there was a smell that made them think they might have tried. The seatbelt also did not latch correctly and was taken to the dlr. His sister was not satisfied with the dlr since they mentioned there was a concern and then said there wasn't. She has turned the claim over to her insurance and he believes that they will repair the veh and subrogate GM. The dlr involved was:

The service tech the spoke with on Monday acknowledged the airbag failure and stated that the seat belt also failed. He assured them that they were defective and both under warranty. Tuesday the story changes. Saturn of Visalia now claims everything was properly deployed, despite the fact that they are now replacing the airbag units and the seat belts.

If they worked properly why replace them? If the units failed should this not be a recall under warranty? I can unders...
