Record Created Date : 09/21/2011

Printed Date : 09/21/2011

Description : DI07-087 SEQUENCE ID 80: A SERVICE REQUEST DETAIL LOG FROM GENERAL MOTORS LLC MAKES THE ALLEGATION THAT A 2005 CHEVROLET COBALT IS POTENTIALLY DANGEROUS DUE TO AN AIRBAG NON-DEPLOYMENT DURING A ROLLOVER. THE LOG PROVIDES A BREIF POLICE REPORT WHICH RECOUNTS THE INCIDENT STATING THAT THE VEHICLE WAS TRAVELING ON A ROAD WITH A 65MPH SPEED LIMIT DURING THE EARLY HOURS OF THE MORNING, 7:20AM. THE DRIVER OF THE VEHICLE SWERVED TO AVOID A LARGE PIECE OF CONCRETE THAT WAS IN THE MIDDLE OF THE ROAD WHICH LED TO THE VEHICLE GOING OFFROAD, AND ROLLING OVER A TOTAL OF 3 TIMES. DOCUMENTS PROVIDED FOR THE SEQUENCE STATE THAT NEITHER DRIVER OR PASSENGER WAS BELTED DURING THE TIME OF THE INCIDENT. AS A RESULT, BOTH WERE EJECTED FROM THE VEHICLE DURING THE ROLL OVER. INJURIES SUSTAINED TO THE DRIVER PROVED TO BE FATAL. THE DOCUMENTATION ALSO CLAIMS THAT THE COBALT WAS TAKEN IN FOR AN AIRBAG RECALL 1 WEEK PRIOR TO THE ACCIDENT TAKING PLACE. FROM A SEARCH NO REACLLS OR PURSUITS WERE FOUND RELATING THIS VEHICLE TO THE ALLEGED SAFETY DEFECT. FROM A SEARCH OF VOQS, 10 REPORTS WERE FOUND WHICH MENTION ACCIDENTS INVOLVING THE VEHICLE IN QUESTION AND AIR BAG NON DEPLOYMENTS. TWO OTHER REPORTS ALLEGED TO FATALIES DUE TO AN AIRBAG NON-DEPLOYMENT. FROM A SEARCH OF FIELD REPORTS, 17 REPORTS WERE FOUND THAT MENTIONED AIR BAG NON DEPLOYMENTS. FROM A SEARCH OF TSBS, 3 WERE FOUND RELATING TO AIRBAG INDICATOR LIGHTS BEING ILLUMINATED. *NO

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Ms. Gay Kent
General Motors Corp.
Mail Code 480-210-G11
30001 Van Dyke
Warren, MI 48090

NVS-217ph
DI07-087

Dear Ms. Kent:

The Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) has received information about certain death and injury incidents reported by General Motors (GM) in its light early warning report from 2nd quarter of 2007. We are writing to request additional information about the following incidents:

Selected Death and Injury Incidents
For Reporting Category: L
For the following Sequence IDs: 20, 37, 64, 79, 80, 87, 127, 132, 154, 203, 211, 252, 253, 288, 306, 353

Unless otherwise stated in the text, the following definitions apply to these information requests:

Incident: each incident identified in the table above.

Claim and Notice: shall have the meanings stated in 49 CFR §579.4(c). Claim and notice also specifically refer to the claim(s) and notice(s) that are the predicate for the early warning report on the incident.

Manufacturer: refers to GM.

Vehicle: the vehicle produced by GM that is identified in the claim or notice.

Tire: the tire produced by GM that is identified in the claim or notice.

Equipment: the item of motor vehicle equipment produced by GM that is identified in the claim or notice.

Defect: means any failure, malfunction, lack of durability, or other problem in performance, construction, a component, or material of a motor vehicle or piece of motor vehicle equipment.

Document: "Document(s)" is used in the broadest sense of the word and shall mean all written, typed, graphic and photographic matter whatsoever (except autopsy photographs), be it in original, copy or electronic form. Any photograph originally produced in color must be provided in color and in electronic form, if possible. Furnish all documents whether verified by GM or not. If a document is not in the English language, provide both the original document and an English translation of the document. Document(s) includes all documents in GM custody and/or control.

Please provide numbered responses to the following inquiries, repeating the applicable request verbatim before each response. After GM's response to each request, identify the source of the information and indicate the last date the information was gathered. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds to each pertinent information request. A separate response must be provided for each incident. Each response, document or attachment must be clearly identified with the incident Sequence ID (SeqID) number.

1. Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.
2. Provide a copy of the Police Accident Report.
3. At your option, provide GM's assessment of the circumstances that led to the incident including GM's analysis of the claim and/or notice regarding allegations of a defect.

This letter is being sent to GM pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49 and to request reports and the production of things. It constitutes a new request for information. GM's failure to respond promptly and fully to this letter could subject GM to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163. (Other remedies and sanctions are available as well.) Section 5(a) of the TREAD Act, codified at 49 U.S.C. § 30165(b), provides for civil penalties of up to \$5,000 per day, with a maximum of \$16,050,000 for a related series of violations, for failing or refusing to perform an act required under 49 U.S.C. § 30166. See 49 CFR 578.6 (as amended by 69 Fed. Reg. 57864 (Sept. 28, 2004)). This includes failing to respond to ODI information requests.

If GM claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5 U.S.C. § 552(b) (4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, GM must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-110), National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590.

Your response to this letter, together with a copy of any confidentiality request, must be submitted to this office by **October 26, 2007**. Please include in your response the identification codes referenced on page one of this letter. If you are unable to provide all of the information requested within the time allotted, you must request an extension from me at (202) 366-4238, no later than five business days before the response due date. If all of the information requested by the original deadline is unavailable, you must submit a partial response by the original deadline with whatever information then is available, even if an extension is granted.

If you have any technical questions concerning this matter, please contact Mr. Leo Yon at (202) 366-7028 or by fax at (202) 366-7882.

Sincerely,

A handwritten signature in cursive script that reads "Christina Morgan".

Early Warning Division
Office of Defects Investigation
National Highway Traffic Safety Administration
1200 New Jersey Ave., S.E.
Washington, DC 20590

NVS-217ph
DI07-087

Dear Ms. Morgan:

This is General Motors' (GM) response to your inquiry dated October 4, 2007 regarding certain death and injury incidents reported by GM in its light vehicle early warning report from 2nd quarter of 2007.

GM's response is comprised of 17 disks for the incidents that are the subject of DI07-087.

Attachment "A" includes instructions for navigating the disk. Each disk, on its face, is identified by the NHTSA Sequence ID number, the Manufacturer's Unique ID number and the year, make and model of the vehicle involved in the incident, e.g., 288 224036947 - 632657 and 2006 Chevrolet TrailBlazer 360. When the disk is launched, this identification number appears again along with all of the documents on the disk (including photographs and videos, if applicable) listed under "Filename." The first document listed under Filename is an index with the Request and Responses, e.g., identified as 288 224036947 - 632657_00_Request and Responses. The index is numbered 1 through 3 to correspond to Inquiries 1 through 3, which are repeated verbatim below. The index also details whether any documents responsive to each inquiry were located.

For example, the first two Inquiries and Responses in the index for the disk are as follows:

DI07-087
288 224036947 - 632657
2006 CHEVROLET TRAILBLAZER 360

Request for Information:

1. Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

Response: See attached document.

2. Provide a copy of the Police Accident Report.

See attached document and photographs on CD.

The remaining documents listed under Filename, reference the Manufacturer's Unique ID number along with the responsive Inquiry number. For example:

288 224036947 - 632657_01_001 - is the first document responsive to Inquiry no. 1.
288 224036947 - 632657_02_001 - is the first document responsive to Inquiry no. 2

Product Investigations

Mail Code: 480-210-G11 • 30001 Van Dyke • Warren, MI 48090
DI07-087 Response.doc

Your inquiries and our corresponding replies are as follows:

1. **Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.**

Response: See attached document.

The table below lists the incidents that are the subject of DI07-087, by Reporting Category, Sequence ID, VIN and type of notice received by GM (as "notice" is commonly used, not as it is defined by 49 C.F.R. §579.4(c)). Incidents reported on GM's Early Warning Report Death and Injury worksheet fall into four categories: Lawsuit (LIT), NISM (Not In Suit Matters), Product Allegation Resolution (PAR), or Rumor (RMR). Lawsuit and NISM case types generally meet the §579.4(c) definition of "claim." PAR cases, in this context, refer to customer contacts in which an injury or fatality is alleged to have occurred as a result of a product defect, and are accompanied by a writing that may or may not meet the §579.4(c) definition of "claim" or "notice." Rumor incidents do *not* involve a written or verbal, implied or express allegation of a defect by a customer. Rather, rumor cases generally refer to incidents that GM learned of through the media, which were subsequently investigated further. As such, the document included in response to Inquiry 1 that can be found on the enclosed disk for the PAR and Rumor case listed in the table, may not be a claim or notice of the type generally defined as such by §579.4(c).

(16 Vehicles from the Light Vehicle Template)		
SEQUENCE ID	VEHICLE IDENTIFICATION NUMBER (VIN)	TYPE
20	5GADV33L15D [REDACTED]	NISM

353	1GTHK39224E [REDACTED]	LIT

2. **Provide a copy of the Police Accident Report.**

Response: See attached document and photographs on CD.

3. **At your option, provide GM's assessment of the circumstances that led to the incident including GM's analysis of the claim and/or notice regarding allegations of a defect.**

To date, General Motors' investigation of the alleged defect has not included an assessment of the cause(s) of each incident responsive to this request. Some incident reports may not contain sufficient reliable information to accurately assess cause. Assessments of claims may

be attorney work product and/or privileged. Therefore, information and documents provided in this response, if any, consist only of non-attorney work product and/or non-privileged material for incidents that have been investigated and assessed.

GM claims that certain information, in documents that are part of rumor, claim and lawsuit files maintained by the GM Legal Staff and its outside counsel, is attorney work product and/or privileged. That information includes notes, memos, reports, photographs, and evaluations by attorneys (and by consultants, claims analysts, investigators, and engineers working at the request of attorneys). GM is producing responsive documents from its rumor, claim and lawsuit files that are neither attorney work product nor privileged and withholding those that are attorney work product and/or privileged.

This response was compiled and prepared by this office upon review of documents retrieved by GM and does not include documents generated or received subsequent to the searches.

Please contact me at if you require further information.

Sincerely,

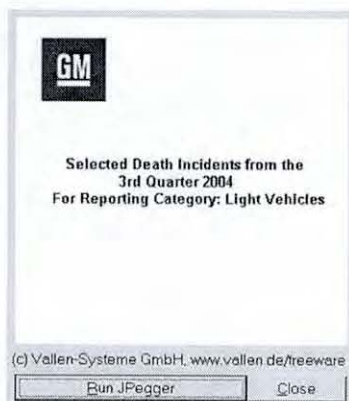

A handwritten signature in dark ink, appearing to read 'G. Kent', with a stylized flourish extending to the right.

Gay P. Kent
Director
Product Investigations

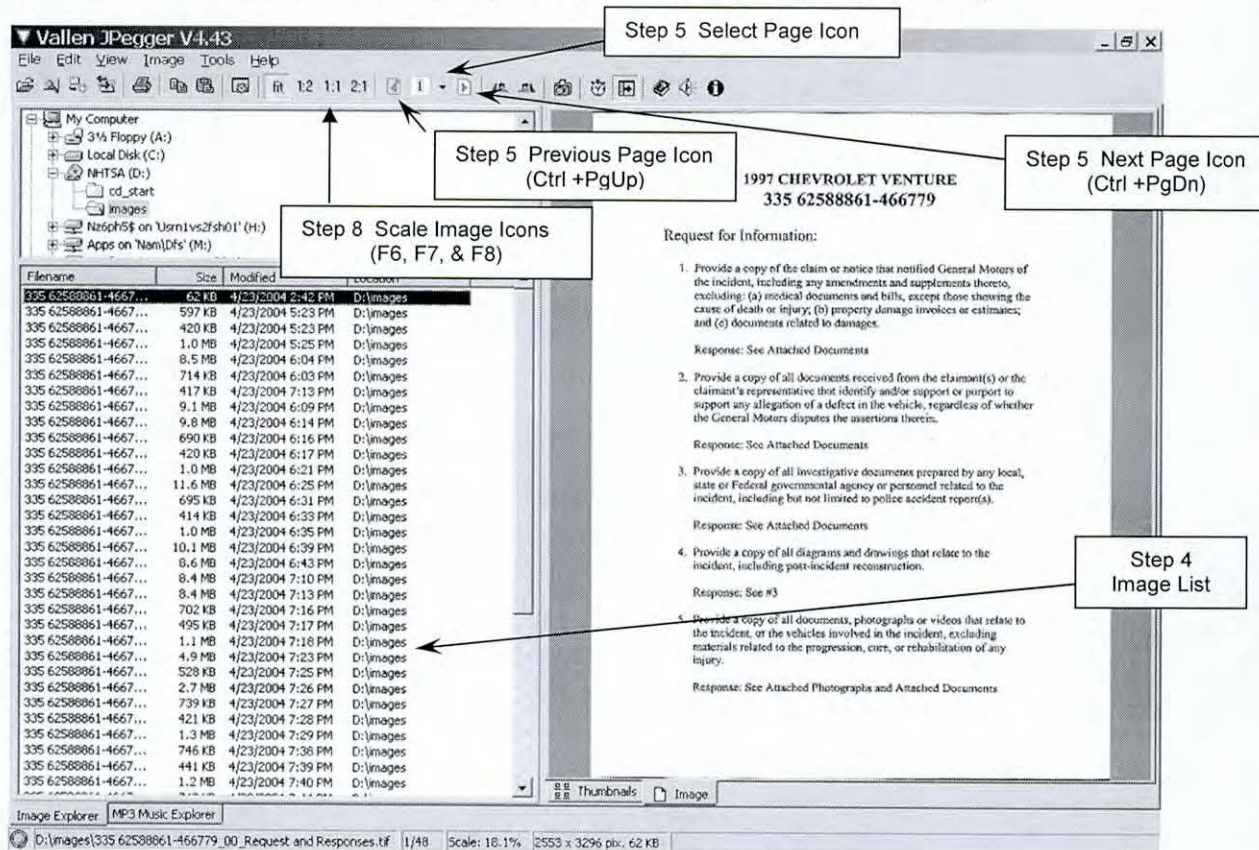

Enclosures: 17 Disks
Attachment A

Attachment A Instructions for using Disk Viewer

1. Insert the disk into the disk ROM drive; the disk will open automatically.
2. Click the "Run JPegger" button on the pop up window.

3. The program will launch in the browsing mode, which is shown in the image below.
4. You can use the down arrow key on your keyboard to browse through the images.

- Each image file may contain multiple pages. In the browsing mode use **Next Page Icon (Ctrl +PgDn)**, **Select Page Icon** or **Previous Page Icon (Ctrl +PgUp)** to browse through all of the pages within an image file. (Note: Some image files may contain up to 80 pages)
- By double-clicking on an image from the file list, a slide show will initiate, however, it will not automatically advance through the pages. Use **Ctrl +PgDn** or **Ctrl +PgUp** to browse through all of the pages within an image file. Left-clicking on an image, while in the slide show mode, will advance to the first page of the next image file.
- Right click on the image to see the image properties, as shown below. Image properties can also be used to view each page within the documents (Next page), or to view the next document within the file list (Next Image).
- If the image is difficult to view, the scale may be changed. Use **F5**, **F6**, **F7**, and **F8** to alternate between scales that fit the screen, or are 50%, 100%, and 200% of the image's original size.

The image shows a legal case cover sheet for 'CAROLINA V. CHEVROLET'. The form includes sections for case information, case type, and a notice. Annotations point to specific features:

- Step 7 Next File (Image)**: Points to the 'Next Image' button in the right-hand menu.
- Step 7 Next page**: Points to the 'Next page' button in the right-hand menu.
- Step 8 Scale Image**: Points to the 'Scale 100%' option in the right-hand menu.
- Step 7 Image Properties**: Points to the 'Image Properties' button in the right-hand menu.

The cover sheet itself contains the following information:

Customer states:

- airbags did not deploy, chevy cobalt
- son had been into an accident, hit a bank...
- none of the airbags deployed
- nephew was killed
- recalled airbags a week before the accident
- vehicle is with Harrisburg, Insurance company (Nation Wide, and the name of their agent is Ronald Panichella)
- Monday, april 30, 7:20am (Accident time and date)
- vehicle is headed back to driver's and and passenger's college, at union county, Williamsport
- there was something on a road and they swerved to miss it then they loss control and hit a bank and the vehicle turned over
- according to a police report, there was a piece of concrete on the highway
- the piece of concrete was a foot and a half by 6" wide
- son (), bruised kidney, some cuts and scratches
- nephew is driving, () died
- Kelley Towing, towed the vehicle to somewhere and insurance company got it and took it in there possession
- injured parties where brought in Gessinger Medical Center, Dansville PA
- wearing no seatbelts, both driver and passenger ejected...

Customer seeks:

- airbags did not deploy, something needs to looked into...the recall was fixed...
- if there is something that GM could do to compensate their loss
- if the airbags deployed, would this save the life of their nephew

CRS advice:

advised customer that their information will be forwarded to the Product Allegation Department within the BRC

Beau_Casset/Elemental_CAC/Manila

Accident Investigation Notification Issued? ☒ Property Damage ☐

Witness and Narrative

This collision occurred as Unit #1 was traveling east on Interstate 80 in the right lane. Unit #1 traveled into the right berm and then swerved left traveling back onto the roadway traversing both lanes while beginning a counter clockwise spin. Unit #1 traveled off the left berm, and struck an embankment with Unit #1's rear. Unit #1 traveled partially onto the embankment and continued to travel east on it's wheels until both driver's side tires became flat causing Unit #1 to begin rolling. Unit #1 then began to roll across Unit #1's driver's side and continued rolling approximately three revolutions along the embankment. While rolling, Operator #1 and Passenger #1 were both ejected from the vehicle. Unit #1 came to rest on its wheels facing southwest just left of the roadway along the embankment. Operator #1 came to rest on the dotted line between the east bound lanes face down with his head facing west. Passenger #1 came to rest along the driver's side rear tire of Unit #1 and then walked up the embankment.

Physical evidence on the roadway consisted of approximately 18 feet of faint black yaw marks leading from the right berm of the roadway and traveling into the right lane. The aforementioned tire marks were created by Unit #1's passenger side tires. Approximately 87 feet of tire marks, located east of the previously mentioned tire marks, were observed leading from the left lane, across the left berm, and into a gravel area ending at the initial point of impact with the embankment. The initial point of impact was a gouge mark in the embankment. Unit #1 traveled approximately 255 feet along the embankment from the point of impact until Unit #1's point of rest. Tire marks, gouge marks, and environmental debris were observed on the embankment and berm leading from the initial point of impact and ending at Unit #1's point of rest. Operator #1's resting point was approximately 63 feet from Unit #1's point of rest.

Narrative and additional witnesses:

Physical evidence consisted of the damage to Unit #1. Unit #1's driver's side mirror was observed on the berm in the area of the first gouge mark in the embankment. Unit #1's passenger side mirror was observed on the berm just east of the driver's side mirror in the area of the second gouge mark in the embankment. Glass was observed on the embankment and berm as result of Unit #1 rolling.

On 04/30/07 at approx 0915 hrs, Passenger #1 was interviewed at the scene. Passenger #1 stated he was sleeping when the crash occurred and awoke in the air after being ejected. Passenger #1 later stated he recalled Operator #1 yelling his name prior to Passenger #1 being ejected. Passenger #1 did not know how the collision occurred.

Passenger #1 stated he and Operator #1 were traveling from their residence in New Alexandria to their school at Penn Tech in Williamsport.

Operator #1 was unable to be interviewed due to severe injuries received in the collision.

TPR Scott DAVIS of PSP Milton interviewed two witnesses at the scene including an initial interview with Witness #1. TPR DAVIS related a witness stated a large piece of concrete was in the right lane of the roadway and may have contributed to this collision. The piece of concrete was located on the right berm which measured approx 1 foot in length and approx 6 inches wide. No evidence was observed suggesting the concrete was in the roadway at the time of this collision. In addition, the piece of concrete was approx 200 feet east of the beginning of the yaw marks on the right berm.

On 04/30/07 at 2138 hrs, the Montour County Coroner, Scott LYNN, contacted PSP Milton and advised Operator #1 expired as result of injuries received in this collision. The time of death was 2046 hrs and the cause of death was "blunt force head injury".

On 5/1/07 at approx 1700 hrs, I traveled to Kelly's Garage and inspected Unit #1. All four tires on Unit #1 were of the same size, type and tread pattern. The brand of tires are Falken Zlex ZE512 and the size was 195-60-R15. Both driver's side tires were flat. Unit #1 displayed a valid inspection sticker expiring at the end of June 2007. The front seatbelts were observed to be functional but in the locked position as result of this collision. The damage to Unit #1 was further documented with digital photographs.

On 5/1/07 at approx 2058 hrs, I re-interviewed Witness #1 by telephone. Witness #1 stated he did not see Unit #1's initial loss of control but observed Unit #1 begin spinning counterclockwise from the right eastbound lane. Witness #1 stated Unit #1 then traveled off the left side of the roadway and impacted an embankment with it's rear before rolling multiple times. Witness #1 stated he observed the occupants of Unit #1 at their respective point of rest. At the time of the collision the Witness #1 stated his vehicle was in the left lane and Witness #1 was completing a pass of a commercial vehicle. Witness #1 stated Unit #1 was in the right lane prior to loss of control. When asked, Witness #1 stated the previously mentioned piece of concrete was not in the roadway at the time of this collision.

Cellu messages were sent notifying of road closure and again when the road was re-opened, see attached messages.

Operator #1's driver license is believed to have been transported with Operator #1.

Narrative and additional witnesses:

On 5/2/07, a fatal crash entry was entered on the Fatal Crash System as required. A copy of this entry will be filed in the crash attachment file.

Assisted at the scene by TPR Scott DAVIS, TPR Chad RARIG, and TPR Bradley TIMBRELL.

Digital photographs were taken at the scene and are filed in the crash attachment file at PSP Milton. In addition, digital photographs of Unit #1 taken at Kelly's Garage will also be filed in the crash attachment file at PSP Milton.

Assisted at the scene by TPR's Scott DAVIS, Chad RARIG, and Bradley TIMBRELL.

An initial News release was prepared and posted on the date of this crash. An updated News Release was prepared and posted reporting the death of Operator #1. Both News Releases will be filed in the crash attachment file at PSP Milton.

This investigation will remain open pending the following:

1. Supplemental from TPR Scott DAVIS documenting witness interviews
2. Copy of Death Certificate and Coroner's report
