Description :

DI09-003-SEQ-473 ON SEPTEMBER 29, 2008, GENERAL MOTORS RECEIVED A PHONE CALL FROM THE FATHER OF THE DRIVER OF A 2007 SATURN ION 4-DOOR SEDAN WHO REPORTED HIS SON HAD BEEN INVOLVED IN A COLLISION ON INTERSTATE 294 NEAR PROVISO TOWNSHIP, ILLINOIS, ON SEPTEMBER 21, 2008, AND THE AIRBAGS DID NOT DEPLOY. AS A RESULT HIS SON SUFFERED A CONCUSSION, BRUISES, MULTIPLE LACERATIONS AND MEMORY LOSS. THE FATHER WAS SEEKING AN EXPLANATION FOR THE LACK OF DEPLOYMENT. THE ILLINOIS STATE POLICE REPORT INDICATED THE INCIDENT TOOK PLACE SHORTLY AFTER FIVE IN THE MORNING IN THE RIGHT LANE OF THE INTERSTATE AND COMPRISED THE SATURN IMPACTING THE REAR OF A 1998 VOLVO TRACTOR TRAILER RIG. PER THE REPORT THE DRIVER WAS TRAVELING TOO FAST FOR THE EXISTING CONDITIONS (A LEGEND FOR DECODING THE CONDITIONS WAS NOT INCLUDED IN THE REPORT) WHEN HE IMPACTED THE REAR OF THE TRAILER. THE REPORT ALSO INCLUDED A STATEMENT BY THE DRIVER THAT HE HAD FALLEN ASLEEP PRIOR TO IMPACT. Dear Ms. Morgan:

This is General Motors' (GM) response to your inquiry dated February 13, 2009 regarding certain death and injury incidents reported by GM in its light vehicle early warning report from 3rd quarter of 2008.

GM's response is comprised of 50 disks for the incidents that are the subject of DI09-003.

Attachment "A" includes instructions for navigating the disk. Each disk, on its face, is identified by the NHTSA Sequence ID number, the Manufacturer's Unique ID number and the year, make and model of the vehicle involved in the incident, e.g., 26 259693756 - 657480 and 2007 CADILLAC CTS. When the disk is launched, this identification number appears again along with all of the documents on the disk (including photographs and videos, if applicable) listed under "Filename." The first document listed under Filename is an index with the Request and Responses, e.g., identified as 26 259693756 - 657480_00_Request and Responses. The index is numbered 1 through 3 to correspond to Inquiries 1 through 3, which are repeated verbatim below. The index also details whether any documents responsive to each inquiry were located.

For example, the first two Inquiries and Responses in the index for the disk are as follows:

DI09-003
26 259693756-657480
2007 CADILLAC CTS

Request for Information:

1. Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

Response: See attached document.

2. Provide a copy of the Police Accident Report.

Response: See attached documents and photographs.

The remaining document listed under Filename, reference the Manufacturer's Unique ID number along with the responsive Inquiry number. For example:

26 259693756-657480_01_001 - is the first document responsive to Inquiry no. 1.
26 259693756-657480_02_001 - is the first document responsive to Inquiry no. 2.

Your inquiries and our corresponding replies are as follows:

DI09-003 Response.doc

1. Provide a complete copy of the initial claim or notice document(s) that notified GM of the incident, excluding: (a) medical documents and bills, except those showing the cause of death or injury; (b) property damage invoices or estimates; and (c) documents related to damages.

Response: See attached document.

The table below lists the incidents that are the subject of DI09-003, by Reporting Category, Sequence ID, VIN and type of notice received by GM (as "notice" is commonly used, not as it is defined by 49 C.F.R. §579.4(c)). Incidents reported on GM's Early Warning Report Death and Injury worksheet fall into four categories: Lawsuit (LIT), NISM (Not In Suit Matters), Product Allegation Resolution (PAR), or Rumor (RMR). Lawsuit and NISM case types generally meet the §579.4(c) definition of "claim." PAR cases, in this context, refer to customer contacts in which an injury or fatality is alleged to have occurred as a result of a product defect, and are accompanied by a writing that may or may not meet the §579.4(c) definition of "claim" or "notice." Rumor incidents do *not* involve a written or verbal, implied or express allegation of a defect by a customer. Rather, rumor cases generally refer to incidents that GM learned of through the media, which were subsequently investigated further. As such, the document included in response to Inquiry 1 that can be found on the enclosed disk for the PAR and Rumor case listed in the table, may not be a claim or notice of the type generally defined as such by §579.4(c).

2. **Provide a copy of the Police Accident Report.**

Response: If available, see attached document(s) and photograph(s) on the enclosed disk(s).

3. **At your option, provide GM's assessment of the circumstances that led to the incident including GM's analysis of the claim and/or notice regarding allegations of a defect.**

Response: GM opts not to respond.

GM claims that certain information, in documents that are part of rumor, claim and lawsuit files maintained by the GM Legal Staff and its outside counsel, is attorney work product and/or privileged. That information includes notes, memos, reports, photographs, and evaluations by attorneys (and by consultants, claims analysts, investigators, and engineers working at the request of attorneys). GM is producing responsive documents from its rumor, claim and lawsuit files that are neither attorney work product nor privileged and withholding those that are attorney work product and/or privileged.

This response was compiled and prepared by this office upon review of documents retrieved by GM and does not include documents generated or received subsequent to the searches.

Please contact me at if you require further information.

Sincerely,

Gay P. Kent
